Integrated Door Position Switch (IDP) Offers Enhanced Monitoring Capabilities for SARGENT Harmony® Series Mortise Locks

SARGENT is pleased to announce that Harmony Series mortise locks are now available with an Integrated Door Position Switch (IDP).

The patent pending IDP option adds a magnetic door position switch in series with the AX (deadlatch) and LX (latchbolt) switches to provide three factor monitoring.

Benefits include:

- Added assurance that the door is secure
- An aesthetically pleasing solution that conceals the door position switch behind the front plate
- Comprehensive security using three-factor monitoring and deadbolt

**Patent pending
Front plate not shown for clarity*

To order, simply add IDP- to the beginning of any Harmony mortise lock ordering string. Lead time is four weeks.

About Harmony Series

The SARGENT Harmony Series Online Integrated Wiegand Access Control Solution offers big features in a small, well-styled lock. SARGENT ANSI/BHMA Grade 1 hardware and integrated access control components are beautifully presented in the Harmony Series. Designed to blend into any environment flawlessly, Harmony is in tune with the aesthetic needs of the architect, and provides high security and ease of installation for the facility manager.

The Authorized Channel Partner (ACP) program is open to resellers, who sell ASSA ABLOY's technology products to certified integrators, and help with product selection based on the application.

Please distribute this bulletin to everyone in your distributorship who specifies and/or purchases SARGENT Electronic Access Control products. Insert this bulletin in the Integrated Wiegand section of your SARGENT full line catalog.
